Blood test guide: Micronised progesterone

Micronised progesterone · gamsa.au/monitoring

Key points No blood test for progesterone itself. A review after 3 to 6 months to see whether it is helping.

Applies to me	Test	When	Aim	Talk to your prescriber if
☐	**Review (no blood test specific to progesterone)**	A check after 3 to 6 months to see whether it is helping and whether to continue; then at each review with your oestradiol tests	No blood level to aim for	You have low mood, or it is not doing what you hoped

A guide to what to expect, not a schedule to follow on your own. Your prescriber sets the timing.
